

2021 - 2022

## L.E.G.O. VIRTUAL CUSTOM BUILDERS

### Create Your Own Custom Lego Set

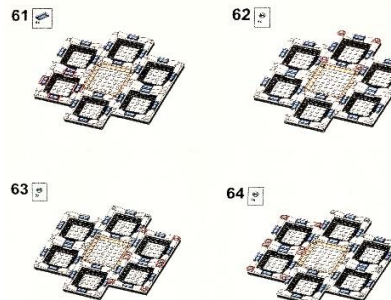

This virtual class is designed for students, teenagers and adults who would like to have their original Lego creation idea designed with custom instructions. Sets would be made and distributed to a group of builders of your choice, and virtual class(es) would be scheduled for the participants. Builders would have a choice to put the original creation together with the teacher, using the custom instructions, or both. Participants should have some experience building with Lego.

**Virtual class(es) are scheduled based upon builder group availability.**

- A **Virtual Live Tour** of the **World's Largest Automated Lego Airport** from the **L.E.G.O.** studio in Natick is presented at the beginning of class.
- **Makeup Opportunities Are Available** if a builder needs additional time or is unable to attend the class.

Your Custom Lego Design Sets can be picked up at the **L.E.G.O.** studio (Natick, MA) or delivered (delivery free of charge if within 25 miles of Natick).

**Fee: Dependent upon the number of pieces in the set, the number of sets made, and the number of class/hours needed to complete the build**

**A Tour of the World's Largest Automated Lego Airport is Included with all L.E.G.O. Clubs and Classes**

**To discuss your ideas about creating a custom Lego model please contact Jeffrey Berk by telephone, email or through the **Contact** section of the L.E.G.O. website.**
