VIRTUAL BUILDERS CLUB Custom Lego Airport Set

This 14-session virtual class is designed for high school students and adults who have significant experience building with Lego. Creative techniques and original use of pieces are introduced as builders construct this replica model of **The World's Largest Automated Lego Airport**. The Custom Lego Airport Set (3534 pieces) can be picked up at my **L.E.G.O.** studio (Raleigh, NC) or delivered (delivery free of charge if within 25 miles of Raleigh).

- Builders have the option to rent or buy the replica **3534 Piece Custom Lego Airport Set** complete with Airplane, Jetway, Terminal, Luggage Truck, Aircraft Staircase and 12 minifigures.
- Builders can continue to **Add Additional Sections Of The Airport** to their sets after they have finished building the initial set. These additions (separate purchase) include airplanes, jetways, passenger pick-up/drop-off roadways, additional sections of the terminal, hotel, a control tower and more!
- Pieces used in structural sections of the set are tested utilizing the **Engineering Design Process** framework. Accepted design options are used in the completion of the build (extra pieces are included).
- **Makeup Opportunities Are Available** if a builder is unable to attend a class.
- **Creative Opportunities** to design and enhance sections of the set as it is being built are presented (extra pieces and stickers are included).

Builders customize
both the inside and
the outside of their
airports!

Class with **Rental** of Lego set: \$480

Class with **Purchase** of Lego set: \$920

To register for **Virtual Builders Club** please contact Jeffrey Berk (telephone, email or through the **Contact Us** section of the **L.E.G.O.** website.

Payment for **Virtual Builders Club** can be made through **Paypal** in the **Sign Up** section of the **L.E.G.O.** website.
